90002 A Guide to the index of slide, B&W films and digital images

90003

90004 **This is a free form text based index. The spreadsheets hold the text which is arranged by columns for basic data:**

90005 **Line#** Editing tag

90006 **Reference** Reference – Film, Colour slide or Digital prefix

90007 **Image#** Photo number within a sequence

90008 **Scan#** Scan of photo, which may be different to Image#. For C series/Collection this column for Source/Src of material

90009 **Date** Best date for photo

90010 **Location** Best location for photo

90011 **T** Basic grouping: Loco, Wagon, Carriage with suffix for AU states or country

90012 **Subject** Photo description

90013

90014 **Most material is number based but there are shortcuts to describe many types of references**

90015 **Any search requires a program that "searches for text within a file".**

90016 **Slides, image numbers are grouped together if there is a common group of images. Avoids time wasted when not necessary.**

90017 **Comments in a cell for further story. Cell will have a reddish background**

90018 **Note: There is a separate Collection Index of all collected Data, Notes, Letters, etc. Only rolling stock images/diagrams included in this list**
